My students need audio visual equipment to promote and share what they are learning in the classroom.

My Students

The students at my school are a spirited group. As a school, we take pride not just in our school but also in our daily activities. We take time to discuss citizenship and how being a good citizen brings us together as a school and as a community. As a school, we take the time to ensure community involvement. We host events the community can attend such as a pancake breakfast and seasonal festivals. We encourage student involvement in the school with after school sports, clubs, and student council. We encourage parent volunteers by offering trainings so the parents will feel useful in their time spent at the school. Our school is not just a school but a caring community.

| *My students come from a diverse community.*

Ms. Barral

Grades 3-5

Kay Carl Elementary School
Las Vegas, NV

Nearly all students from low-income households ?

Those who do not have much have the support of those who can give. Even if material items cannot be given, time is given. What makes my students special, my school special, and our community special is the care and respect we have for one another.

My Project

My project is focused on audio visual equipment. I am asking for microphones and different types of cameras. My school likes to share what is going on in the classroom through our school broadcasting network. Right now our broadcast is filmed by our technology teacher. I want to put the broadcast, the filming, editing, and publishing on the students. I want my students to find things they are passionate about in the classroom and share them with the school.

Audio Visual Equipment can help students meet the standards asked of them and allow them to share it with their school.

Students are asked to create PSAs, commercials, and video presentations, but they are always poor quality because they are using what's available, a laptop or a chromebook that has been around for a while. This will allow students to produce quality commercials and PSAs. My students will be excited to feel like real actors and directors with real equipment to use.

Donations to this project are now being matched, thanks to support from An Anonymous Arts Funder. Every child should have access to essential art materials and experiences. An education in the arts makes children well-rounded, engaged, and active citizens of the world. This project has been supported in an effort to ensure that all students gain from the many benefits that arts education provides.
